Engineering degree in software engineering and information system

Polytech INTL

08/2024 – Present | Tunis/Tunisia

PROJECTS

Al-Baraka

Recipe & Event Planner Web App

- Developed a dynamic recipe scaling feature that automatically calculates precise ingredient quantities based on user-defined serving sizes.
- Implemented an event scheduling system with automated email reminders to notify users of upcoming dinner plans.
- Designed and built a secure RESTful API with Node.js to handle all CRUD operations for recipes, events, and user data.

Virtual Gym Coach

- Developed a **mobile fitness application** using **Flutter** that generates personalized daily workout plans based on targeted muscle groups (upper body, lower body, etc.).
- Integrated **Firebase** for real-time data storage and user management, ensuring smooth performance and scalability.
- Flutter, Firebase, Dart, Git**

SKILLS

- Communication
- Collaboration
- Web Design
- Attention to Detail

PROFESSIONAL EXPERIENCE

Full-Stack Developer & Dynamics 365 Consultant N2VERSE

10/2023 – present | Ariana, Tunisia

- Designed and customized **Microsoft Dynamics 365 CRM** solutions with custom tables, plugins, and web resources to optimize business processes.
- Built and documented **RESTful APIs as Azure Functions** with **Swagger** for seamless and secure CRM integration.
- Developed and deployed **.NET scheduled tasks** via the **Azure Portal**, integrating **Azure Key Vault** for secure credential management and synchronization between CRM and external databases.
- Contributed to a **React/Next.js web app** backed by **Supabase (PostgreSQL)**; managed source control and delivery through **Git** and **Azure DevOps**.
- Collaborated within an **Agile** framework, participating in sprint planning, reviews, and client meetings to ensure timely, high-quality delivery.
